EHS HERO'S AUDITS AND INSPECTIONS TOOL

Simplify workflows and improve safety

Keeping track of everything you need to be prepared for an audit or inspection can feel like a full-time job, but conducting audits regularly is integral for identifying compliance issues, improving workplace safety, and reducing facility liability. EHS Hero's Audits and Inspections Tool can save you 82% of time spent on recordkeeping and 73% of time spent creating forms by simplifying the audit process and helping you stay on top of your obligations across all sites.

With this tool, you can:

✔ Create a central location for storing audit files

✔ Build, complete, and track any audit, inspection, survey, or checklist

✔ Upload supporting files and photos

✔ Schedule and assign recurring audits

✔ Set up e-mail notifications for action assignments

✔ Link audit forms or instructions from the Document Center Tool

✔ Access audits from anywhere with our stand-alone mobile application

✔ Complete preventive maintenance

Simplify your auditing procedures, stay on top of your compliance obligations, and ensure your work environment is safe and healthy with EHS Hero's Audits and Inspections Tool.
