PRAISE FROM SATISFIED USERS

“I subscribed to TrainingToday primarily to make sure we have covered key issues like diversity and harassment. Although we are not required to provide annual training for those issues in Florida, it makes sense to do it and TrainingToday makes it easy—and provides documentation.”

“We work with clients that have a variety of HR needs due to their size, industry, and location. HR Hero provides us with the resources we need to service our clients and ensure we are keeping them in compliance. I find the handbook and job description tools most useful and use them on a weekly basis.”
